

Patient Reported Outcome/ Experience Measurements Workshop: How to define the “best indicators” for patients in order to support innovation projects and high value care strategy ?

Objectives:

- 1/ Specify the assets, limitations and results of PROMs and PREMs from first-hand experience of Living Labs and Test Beds
- 2/ Highlight the added value of Living Labs and Test Beds in the value chain of PROM and PREM production: definition, measurement, validation, publication
- 3/ Identify best practices or potential Living Labs and Test Beds to support innovation projects and high value care strategies

Organisation: 4 online two-hour sessions

- **1st session: 13 November 10 am-12 pm**
 1. Introduction: Hervé Michel, MADoPA and Robert Picard, Forum LLSA
 2. Presentation of notions of PROMs and PREMs: **Dominique Pougheon, Sorbonne University Paris Nord**
 3. Case study: what conditions need to be met in order for stakeholders and patients to have trust in PROMs and PREMs? Feedback from **Calydial, France**
- **2nd session: 27 November 10 am-12 pm**
 1. Case study: Why is it important to develop PREMs from a hospital perspective? The example of **Hospital University Basel, Switzerland**
 2. Case study: PROMs for patients and health professionals, the example of self-management of patients with kidney transplantation, **Innovation Skane, Sweden**
- **3rd session: 9 December 10 am-12 pm**
 1. Case study: PROM supported by metrology expertise, the example of **Innov Autonomie, France**
 2. Case study: PREM in EIT Health innovation projects: feedback from the RW4C project applied to monitoring of cardiac insufficiency, **MADoPA, France**
- **4th session: 18 December 10 am-12 pm**
 1. Case study: e-PROM for patients, the example of Mask-air, an app for the monitoring of allergic rhinitis, **Kyomed, France**
 2. **Round table with two international experts:** what utility and added value of PROMs and PREMs in EIT Health projects and High value care strategy?
Provisional speakers: Dr. Christina Ackerman, ICHOM, Pr. Etienne Minvielle, Ecole Polytechnique, France, and Dr. Jorge Fernandez, EIT Health
