- Upcoming Campaigns/Activities/Events 10 min
- Any other Business?

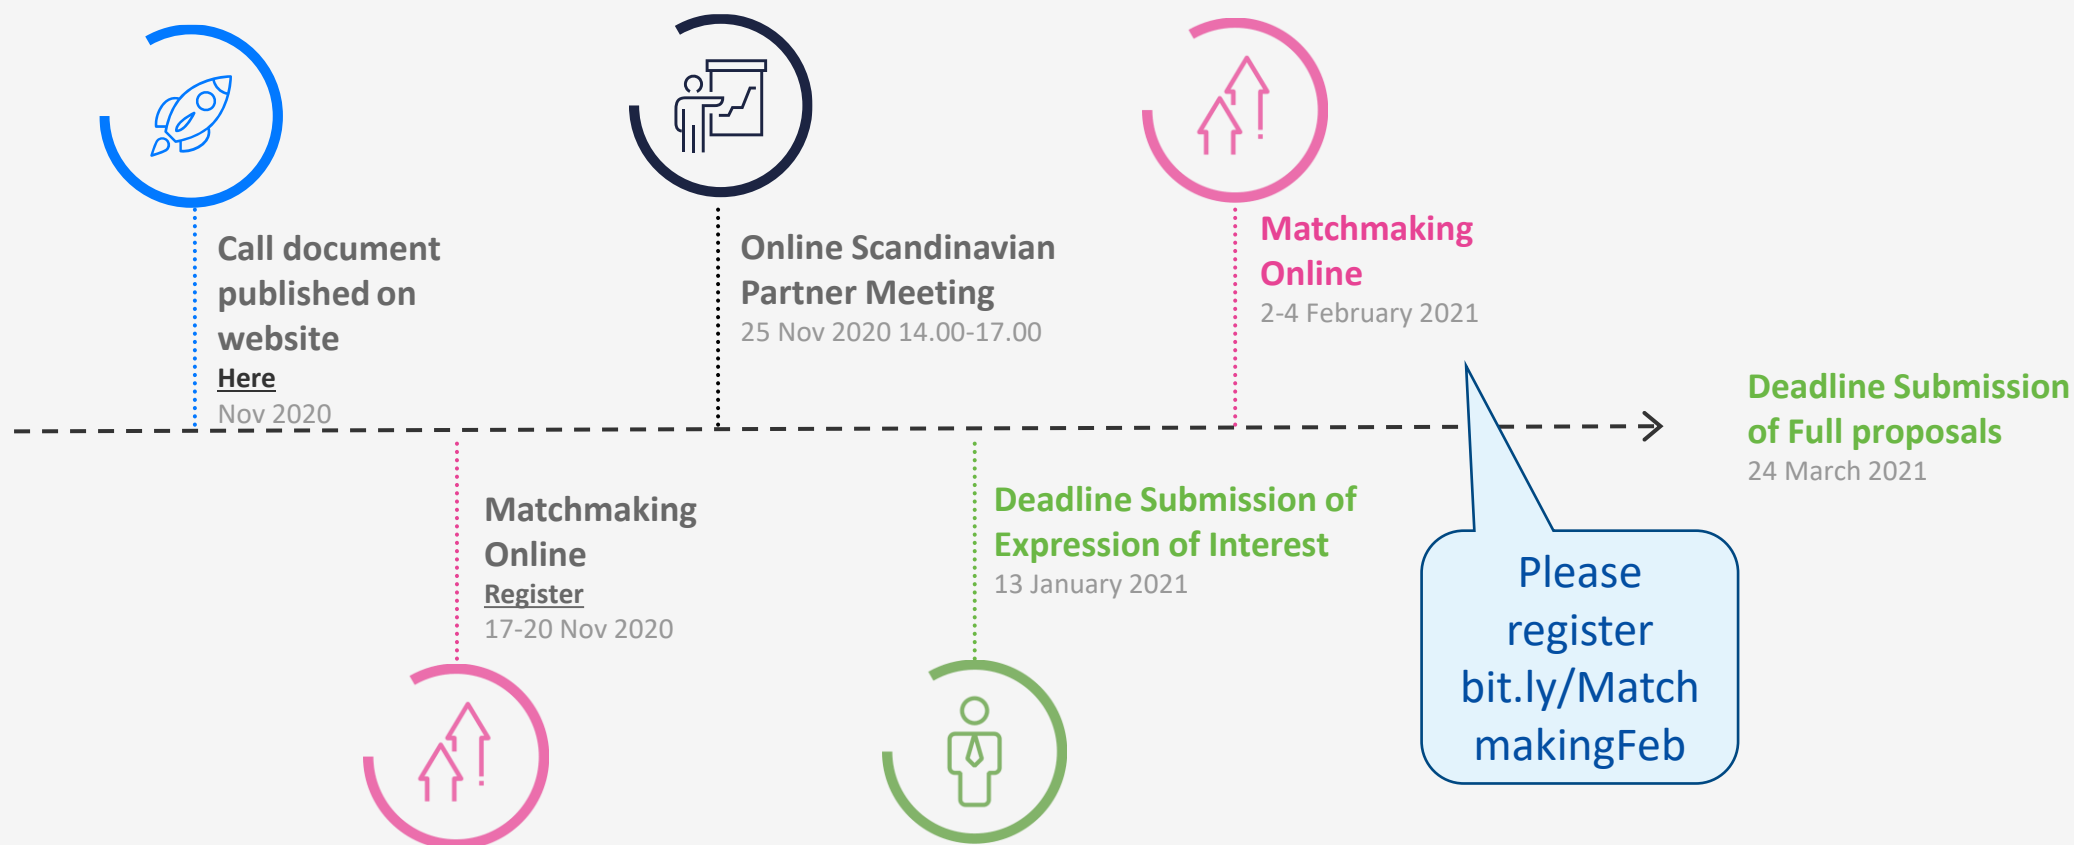

BP 2022-The Call

What are we looking for?

- Understand the needs of patients and healthcare providers
- Turn innovative ideas and technologies into real products and services
- Build on strong capability to take innovation to market
- Help bridge the fragmentation between markets and scale

Timeline for project application call 2022

BP 2022

- The EIT Health Business Plan 2022 Call for Proposals and two of its annexes were amended on 14 December 2020, with several updates intended to clarify some of the details of the Call and the process of submitting applications.
- [LINK](#)
- **Webinars:** The Project Management Office will be offering the following webinar sessions with useful information for applicants. No prior registration is required for participating in the webinars:
- 1 March 2021, 11am CET (Munich time.) **[Click here to join!](#)**

HUS CO-DEVELOPMENT SERVICES, CLINICAL DATA AND R&D PROCESSES LEAD TO VALIDATED SOLUTIONS

Co-development based on the world-class healthcare, medical research and data infrastructure at Helsinki University Hospital.

- **Apotti (Epic)** patient information system will uniquely integrate primary care, hospitals and social services
- **HUS Testbed** services for medical device testing and validation www.hustestbed.fi
- **Clever Health Network** for application of artificial intelligence, machine learning algorithms and data analytics on real data with feasibility validation
- **Health Village** offers a scalable digital service platform to support patient care locally.

New healthcare solutions that meet regulatory requirements and are scalable internationally – HUS holds an ISO 13485 certified quality system

WHAT ARE TESTBEDS?

Services that enable health technology companies to develop and validate their products in collaboration with health care service providers

Access to an authentic clinical environment

- Connects companies with experts and infrastructure
- Platforms for education and research collaboration aiming at mutual benefits
- Provide clear processes and co-operation models

www.hustestbed.fi

HELSINKI BIOBANK HOSPITAL INTEGRATED BIO-INFO-BANK

➤ Legislation

- Wide consent
- Possibility to transfer existing collections and collect new samples
- Possibility to attach clinical data from EHR
- Possibility to re-contact patients
- Possibility to collaborate with industry

➤ Investments in Data-Infrastructure

- Data collection from various hospital data sources for secondary use (data lake)
- Transformation of data to usable form (data model implementation, curation, harmonization, pseudonymization and quality assurance)
- Tools for application of statistical mathematics and data science to data

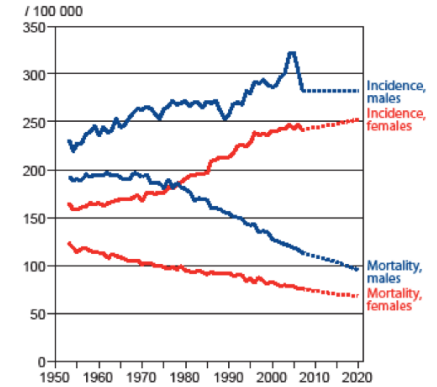

➤ Gaining Capability and Competence in Data Engineering and Analytics

HELSINGIN **BIOPANKKI**
HELSINGFORS **BIOBANK**
HELSINKI **BIOBANK**

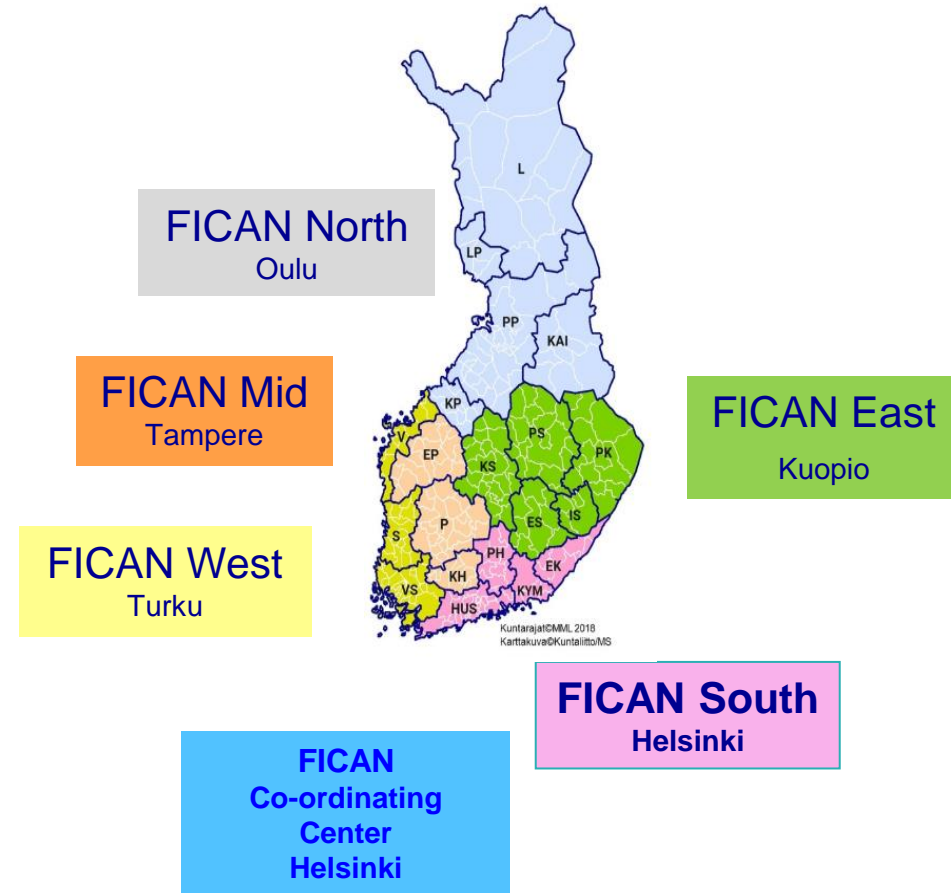

Cornerstones of cancer treatment in Finland

- High quality cancer care and research
- Cancer Registry, hospital quality registeries and FinnData
- First Nordic **Comprehensive Cancer Center** (OECC) in HUS
- National Health innovation and growth strategy 2017-
- **iCAN Academy digital precision flagship, Cancer IO Business Finland program, FinnGen network of Biobanks**
- National **FICAN 10/2019**

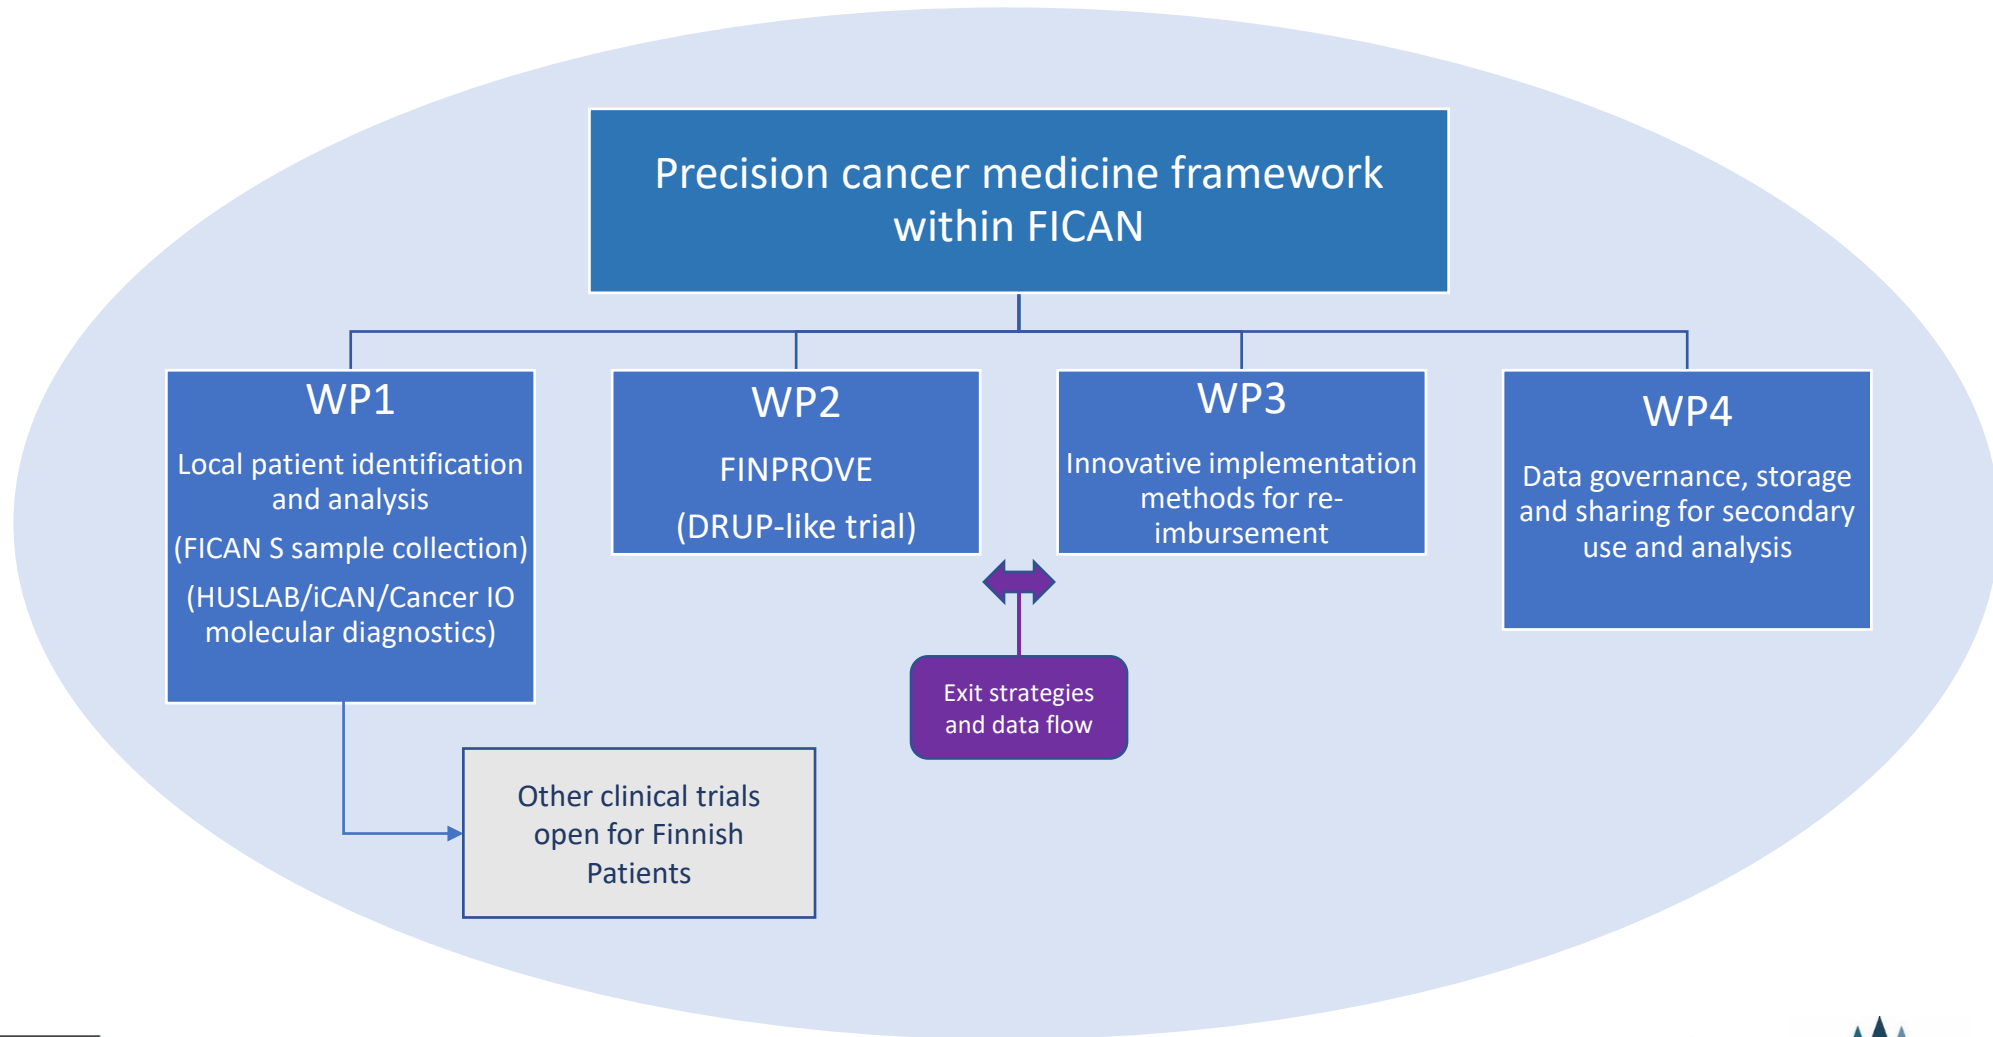

National cancer center, FICAN

- = 5 regional cancer centers and co-ordinating center
- **Main program of the National health innovation and growth strategy**
- Biobanks and Genome center are key partners
- **National collaboration and innovation environment**
- **Target to have equal cancer care in Finland**

Precision cancer medicine framework around FICAN (South) activities - Public Private Partnership

HELSINKI UNIVERSITY HOSPITAL COMPREHENSIVE CANCER CENTER

**Comprehensive Cancer Center (OECl) accredited
1st in the Nordics**

30 000 patients annually

11 500 new patients

14 000 referrals

Includes all fields of Oncology

**1.7 million
outpatient
visits
annually**

ACCREDITED CANCER CENTER

Accredited in 2014 by the Organisation of European Cancer Institutes (OECI) as one of the best cancer treatment centers in Europe

Comprehensive Cancer Center

Member of OECI

Member of the Academic early clinical trial network in Nordic countries

RESEARCH AT THE CANCER CANTER

5 professors

182 scientific publications in 2018

20-30 graduate students (PhD)

102 clinical trials: 58 academic, 42 sponsored

Ca. 40 new researches annually

CLINICAL TRIAL UNIT

- **15 new trials in 2020**
 - 1 CART phase II trial
 - 4 First in Human trials
- **82 open trials**
 - 50 in solid tumors
 - 32 in hematology
- **Collaboration** with:
 - HUSLab, HUS Pharmacy, HUS Imaging, Helsinki Biobank
 - University of Helsinki, Finnish Institute for Molecular Medicine
 - Early Phase Unit active member in the NECT
- **Partnership** in:
 - iCAN (Digital Precision Cancer Medicine Flagship)
 - eCARE for me (AI-assisted solutions for optimal diagnostics and treatment of acute leukemia)

HUS - CCC ASSOCIATE PARTNER PRESENTATION

MOTIVATION FOR JOINING EIT HEALTH

By our values Caring, Pioneership and Equality, we improve healthcare of patients, and collaborate on health innovations in Finland and Europe. Specifically, we are motivated to:

- Promote personalized health of citizens

- Increase the effectiveness of cancer treatments – improve personalized medicine through interventional trials

- Develop and validate eHealth solutions

- Sharing data and learning via artificial intelligence

ADDED VALUE TO EIT HEALTH

We believe that cooperation carries research results into practise. We drive for an ecosystem where healthcare and research can thrive. We see that for us it is important to join a community of innovators at EIT Health.

Our network is comprised of world-class organisations across Finland from the three worlds of business, research and education.

Overview of accelerator Eols submitted in BP2022

In total 30 Eols received
Leading partner:

- EIT Health Centrally/Regional Innovation Hubs: 8
- Scandinavia 3
- Germany 2
- BENE 1
- UK-Ireland 3
- InnoStars 7
- Spain 3
- France 3

20 Bootcamp Eols

15% of Bootcamp Eols led by Scandinavian Partners

6 Accelerator Bootcamp Eols BP2022 – leading and participating

Leading (all 3 received a go to full proposal)

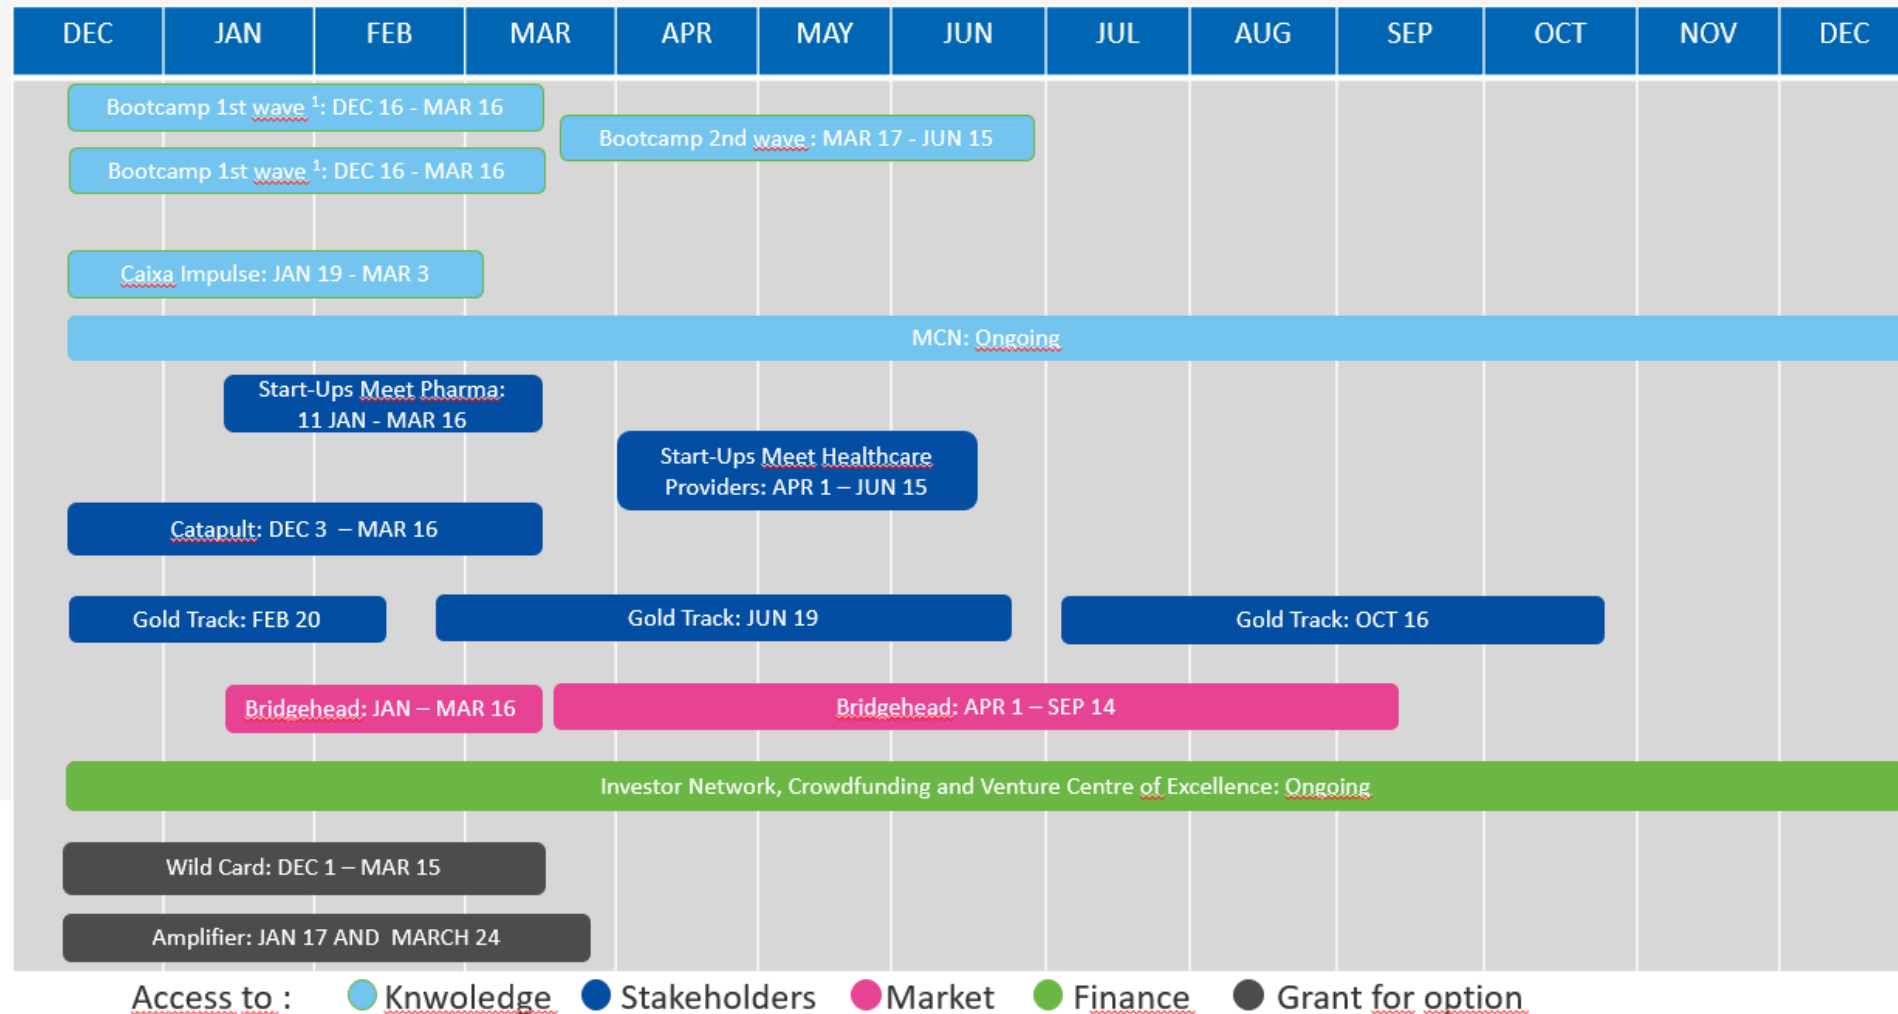

- **Patient Innovation** – **CBS, UCPH**, IESE, Biocat, PI Association, U. NOVA Lisbon, Glintt
- **OpenAPI** – **R. Skåne**, Trinity College, Oxford U. Hospital, GE Healthcare
- **SPSBHS** – **U. Tartu**, Tartu BT Park, Scanbalt, Commercialization Reactor

Participating

- **EIT Health Translate Technology Bootcamp**: Technische Universiteit Delft, **UCPH**, Biocat, la Fundació Bioregió, Medical Valley EMN, City of Rotterdam
- **Smart Care Bootcamp**: Universitat Politècnica de València, **KI**, UPF Ventures
- **INTERSEED**: Trinity College, **DTU**, Medicen

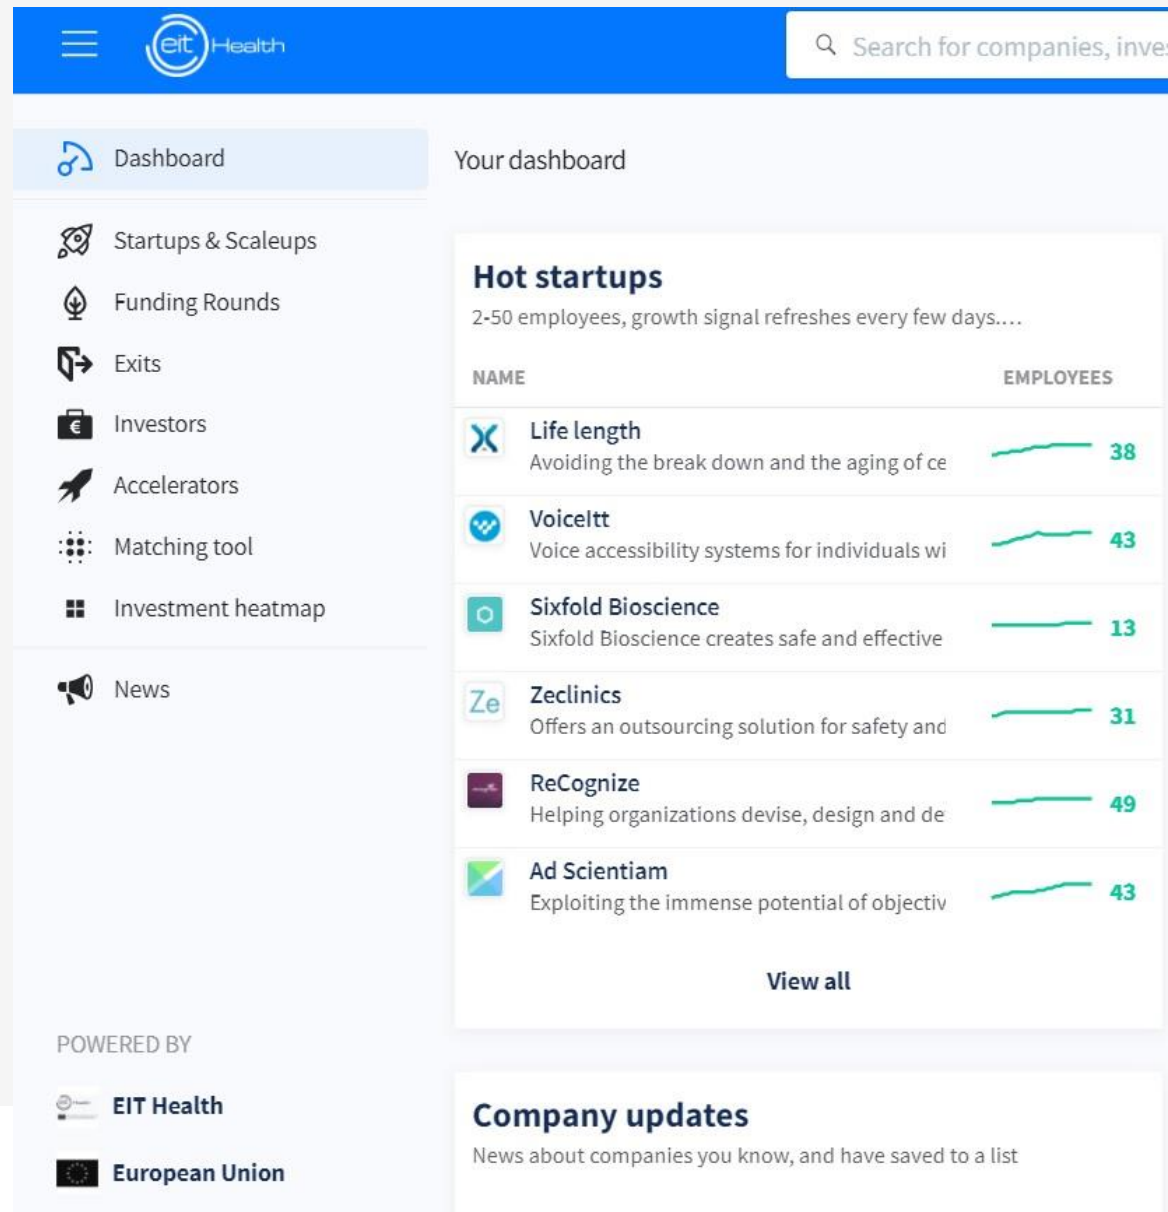

EIT Health Accelerator programmes for startups/SMEs 2021

Full Catalogue available to download [here](#)

New Start-up Platform

It allows everyone in the community and beyond to see what start-ups have received support from EIT Health, what investors have also supported them, as well as lots of other detailed analysis of their performance, trajectory and plans. Available [here](#).

The screenshot shows the EIT Health Start-up Platform dashboard. The top navigation bar is blue with the EIT Health logo and a search bar. The left sidebar contains a menu with icons and labels for various sections: Dashboard, Startups & Scaleups, Funding Rounds, Exits, Investors, Accelerators, Matching tool, Investment heatmap, and News. The main content area is titled 'Your dashboard' and features a 'Hot startups' section. This section includes a table with columns for 'NAME' and 'EMPLOYEES', listing six startups with their descriptions and employee counts. A 'View all' link is provided below the table. At the bottom, there is a 'Company updates' section with a heading and a brief description. The footer of the dashboard mentions 'POWERED BY EIT Health' and 'European Union'.

Expression of Interests (EOIs) for Education Programmes BP Call 2022

- In total 89 Eols received
- Leading partner:
 - Scandinavia **11** (12% of all submitted Eols)
 - Germany 11
 - BENE 9
 - UK-Ireland 5
 - InnoStars 22
 - Spain 23
 - France 8
- Scandinavian Partners participating in **34** Eols as co-partners
- A total of **45** Eol with Scand partner involvement (51% of all submitted Eols)

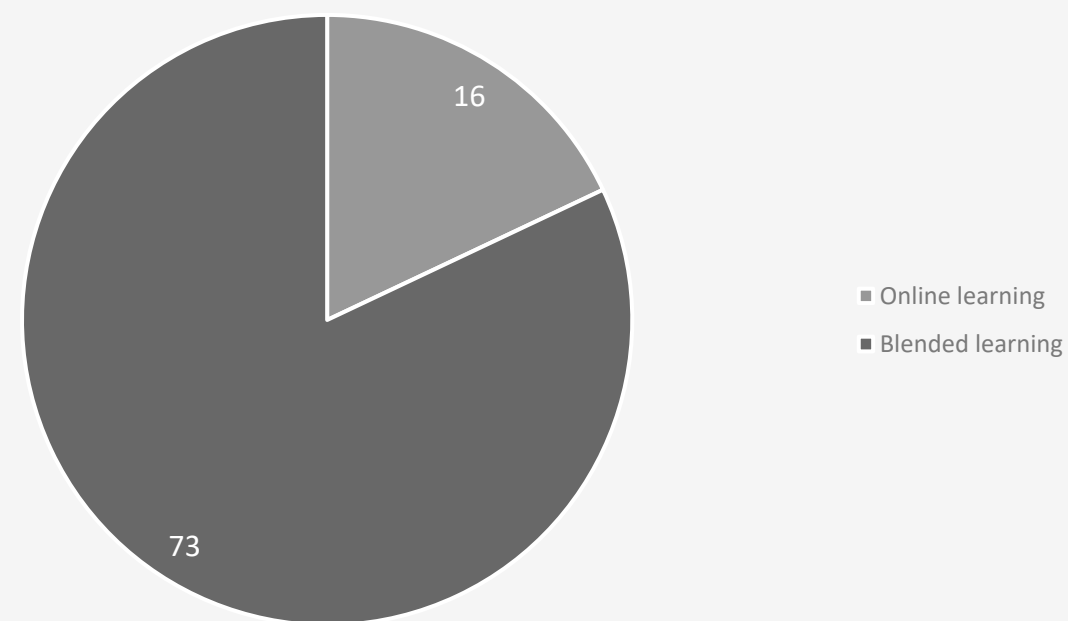

BP Call 2022 Expression of Interests (EOIs) for Education Programmes

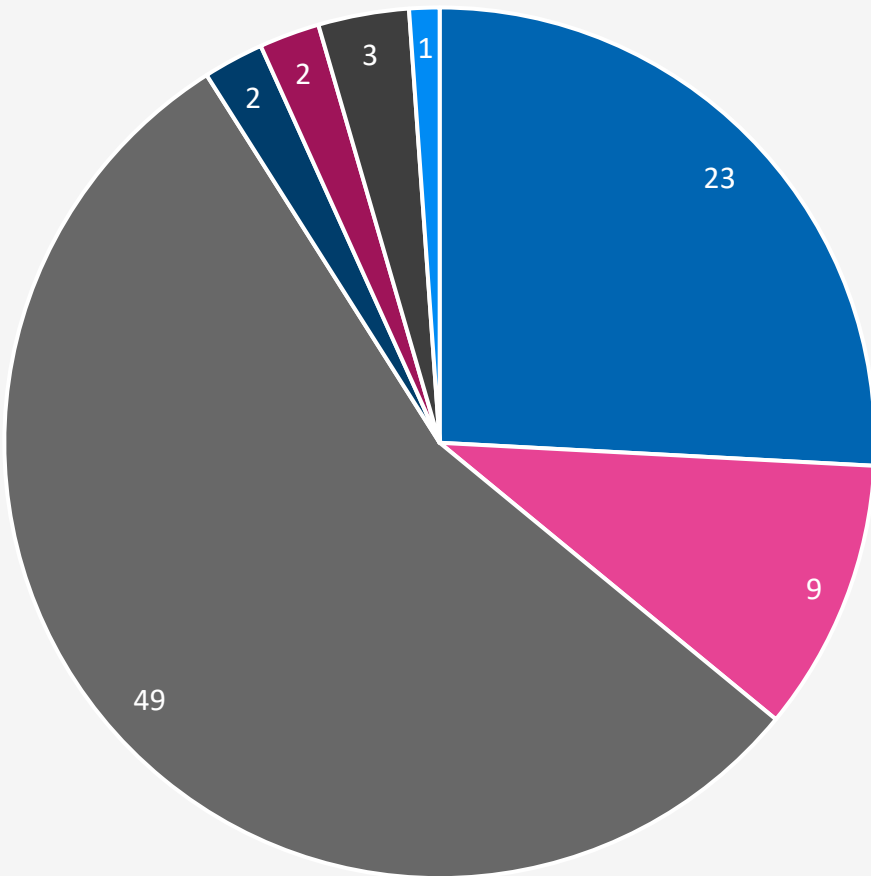

New or Re-applications

Learning format

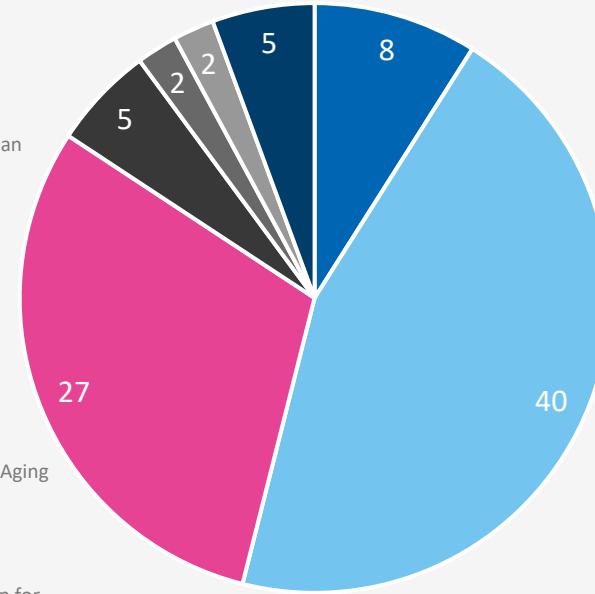

EOIs per theme

- Co-Create!: Global Pandemic – Innovation and Technology
- Co-Create!: Impact of Climate Change on Human Health
- Co-Create!: Sustainable health workforce
- Degree Programmes : Innovation and Entrepreneurship in Healthy Living and Active Aging
- Degree Programmes : Technological Innovation for Health
- Degree Programmes: Health and Medical Data Analytics
- Degree Programmes: Healthcare Innovation and Entrepreneurship

Focus area

- Harnessing the power of real world data (rwd)
- Creating the enabling environment for healthcare transformation
- Fostering healthy lives by introducing behavioural change
- Towards health continuum care pathways
- Employer leadership in improving health outcomes in the workplace
- Bringing care home
- Not applicable

Scand Partner Involvement in Education Eols

Guidelines for submitting full proposals are also already available and forms in Plaza are also opened.

HVC Pilot Project Process

Training sessions for Scand lead project teams

The topics we will cover on 29th of January, 9.30-10.30 CET

- Road to help - persons, Connections, trainings, dropbox folder
- Summary of applications
- Timeline (including timeline for HVC Pilot)
- Check-lists of eligibility criteria of different project types
- How to find partners to your consortia? Discover database, Matchmaking event, 7-4-1 rule & problematic partners
- UK partners in consortium
- How to integrate partners to project - process
- Full proposal structure & supportive files (templates for that), WPs
- CIMIT maturity level - .pptx, supportive tables

Calendar invites sent to activity leads.

In case you cannot attend, you can listen the recording later and find the slides from here:

https://www.dropbox.com/sh/mf8co15dihysim6/AABB3I5tBnkYMzpGKgDq_e9ha?dl=0

Training sessions for Scand lead project teams

2nd session on 12.02, 9.00 CET

- Financial sustainability models
- Start-up driven projects - eligibility criteria, DD, additional documents to provide now and in summer (language of the docs), process, payment schedules (need for financial capability), example: calculations for options
- Commercialisation plan - Excel to up-load
- market entry steps
- Intellectual property - patents, trademarks, trade secrets, freedom to operate analysis, ownership and income distribution while on the market

3rd session on 26.02, 9.00 CET

- Knowledge triangle in projects
- Cost-benefit analysis, impact
- How to write good abstract - one of the most important part of your project?
- EU regulation, clinical trials, health care payor coding
- Ethics
- Ontology and keywords

4th session on 12.03, 9.00 CET

- Budget and Finances - cost compliance, budget justifications, options for amendments later, tenders, subcontracting, timesheets, overhead, Co-funding
- KPIs, DELs, MS, etc. - differences between these
- Evaluation procedure - impact, contribution to EIT Health, scorecard
- Plaza - Q&A, final submission

Wild Card Program

Challenge 1: Eye & Vision Care - How to mitigate, prevent and cure eye conditions and vision impairment?

Challenge 2: Pain Management - How to alleviate acute and chronic pain conditions?

Support for 2 companies: 1.5 million euros each over 24 months.

Applicants must submit their application (3 min video & online form) by 16 March 2021, 23:59 CET.

FORMAT OF MEETINGS?

- I like it the way it is
- I want it to be more thematic so I can attend when the topic is relevant
- I want it to be more interactive - a way to find partners
- I want information about what is going on I don't have time to read all the information being sent I see the meeting as a way to get information
- How often? Monthly, more often, less often?

Partner Assembly

- EIT Health Online Partner Assembly
- Online, 12 Feb 2021
- The next EIT Health e.V. Partner Assembly will take place on 12 February 2021 from 14:00 – 15:30 (CET) in the form of an online meeting.
- The Partner Assembly is EIT Health's main decision-making body. In the Partner Assembly, each Core Partner has one vote while our Associate Partners are represented by one Delegate per regional Innovation Hub (CLC)/InnoStars. Representatives of all Associate Partners are welcome to join the Partner Assembly.
- A main decision point for the Assembly is the adoption of the revised Business Plan for 2021.
- The agenda and other materials for the meeting are being sent to key contacts of the Core and Associate Partners.
- **Register for the meeting here, by 8 February 2021.**
- For information about the meeting, and how to register, please contact Laura Prat, **laura.prat@eithealth.eu**.
