

EIT Health InnoStars

Together for healthy
living and active
ageing in emerging
markets

EIT Health InnoStars

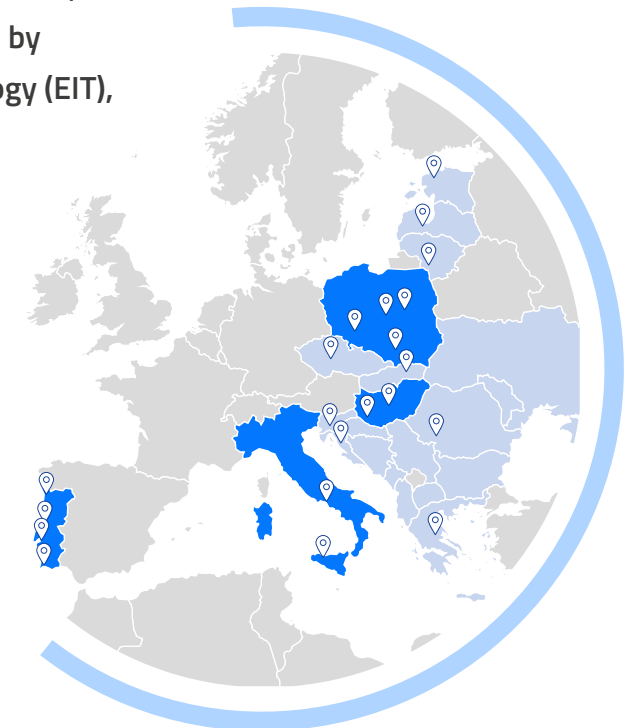

has been growing
fast since 2014

EIT Health InnoStars is a regional chapter of EIT Health, an international nonprofit organisation supported by the European Institute of Innovation and Technology (EIT), a body of the European Union.

InnoStars covers half of Europe

- Stable and developing innovation ecosystem in 4 countries
- Coordination of 13 EIT Health Hubs in 12 countries. Call for the new Hub in Poland will be open
- Over 40 start-ups supported yearly
- Over 70 events across Europe to promote EIT Health opportunities
- EU award-winning, self-developed programmes

InnoStars is focused on promoting entrepreneurship, innovation, and education in the domain of healthcare, healthy living and active ageing in the progressive regions within European countries where the overall pace of innovation is still moderate, according to the European Innovation Scoreboard (EIS).

Headquartered in Budapest, EIT Health InnoStars spans several geographic regions in Hungary, Italy, Poland and Portugal. This area includes the highest concentration of funding for European Structural and Investment Funds (ESIF) for innovation, with €20 billion available up to 2023.

EIT Health InnoStars Partners

Core Partners:

Associate Partners:

Voting right and thus impact on strategic activities of EIT Health	✓	✓ (non individual)	n/a	n/a	n/a
Participation in the EIT Health Annual Call for Proposals	✓ (possibility of being lead partner)	✓ (possibility of being lead partner)	Limited (subject to teaming up with a lead partner)	Limited (subject to teaming up with a lead partner)	Limited (subject to teaming up with a lead partner)
Receiving grants	unlimited	€ 350 000 / yearly	Linked to partners' grants	€ 50 000 + € 100 000	€ 50 000
Benefitting from EIT Health networking matchmaking and attending events and meetings	unlimited	unlimited	limited	limited	limited

Scaling up innovative ideas

Examples of start-ups that gained support from EIT Health InnoStars:

findair

Smart asthma inhaler

NEBULA
MEDICAL

Swalloeable radar chip that scans the surface of the colon

Dr@mnibus

Technology for Autism

SensDx
SMART DIAGNOSTICS

Diagnostic testing technologies

HYDRUSTENT
NON-DEGRADABLE IS SO 20TH CENTURY*

Biodegradable ureteral stent

GENOMTEC

Mobile molecular diagnostics

NEUROPSYAI

Neuro imaging diagnostics

HEARTGENETICS
GENETICS & BIOTECHNOLOGY

Genetic testing in the cardiovascular field

OXIPIT

Automatic reporting tool of chest X-ray images

FIDENS

Reduction of hand tremor for people with Parkinson's disease

HeartWatch

Self-screenings of heart

SyNoesis
THERAPEUTICS

New therapeutic for Parkinson's disease

sone
Pro

Smart device for the classic stethoscope

Perquisite	Certificate of participation	The Winner receives up to € 12 000	3 winning teams receive up to € 50 000
Dates for submissions	Beginning of February	End of March	End of March
Duration	9 weeks	9 months	9 months

EIT Health InnoStars

coordinates EIT Health Regional Innovation Scheme Programme

There are 13, competitively selected, EIT Health Hubs located in 12 countries which support development of local communities eager to innovate in healthcare. Call for the new Hub in Poland will be open.

EIT Health InnoStars creates a unique link between geographically more remote hubs and makes them involved in the European innovation ecosystem.

”

**We ensure that
innovation always
addresses the needs
of the market
and society.**

We connect all relevant healthcare players across European borders – making sure to include all sides of the “knowledge triangle,” so that innovation can happen at the intersection of research, education, and business. We bring together healthcare professionals, entrepreneurs, and citizens, offering them new opportunities and resources.

We give health innovators access to the market, to funding, and to the expertise of our network. We facilitate innovation in programmes, workshops, and initiatives. We collaborate on international projects – incubating ideas, forming start-ups, and disseminating our findings in the media, events, and publications. We create new products and services for healthy lives in Europe. And we educate, too: in citizen engagement activities, innovation programmes, and skill development trainings.
