### Why EIT Jumpstarter?

The creative community, advanced know-how, unique programme, expert trainers, and mentors are EIT Jumpstarter. With the contribution of best-in-class experts, creative community, and exceptional know-how, we aim to support idea-holders to turn their ideas into business.

After setting up your account, we will ask you questions about your idea and team. These include basic ones such as citizenship and role in the future start-up or previous experience with the EIT Community. The more complex ones are on your potential customers, why your idea is unique, and the main challenges and risks.
