

# 2023 CATALOGUE OF EIT KICS BUSINESS CREATION (BC) AND EDUCATION PROGRAMMES

FOR BENEFICIARIES FROM UKRAINE

LAST UPDATE: July 2023

Funded by the  
European Union

## SUPPORTING UKRAINE: PUTTING THE EIT COMMUNITY TO THE UKRAINIAN PEOPLE'S BENEFIT:

EIT Community Strategic Regional Innovations (SRI) Cluster is a unique collaboration platform between **seven EIT Knowledge and Innovation Communities (KICs)** in all countries, that have status as moderate or modest innovators in Europe. We cover **22 regions in Central, Eastern, and Southern Europe**. The Cluster is coordinated by EIT Health KIC.

At EIT Community SRI Cluster, we strongly emphasize our dedication to Ukraine by providing its citizens and organizations with numerous opportunities through our programs. These initiatives, operating within the EIT Community, actively promote and nurture innovation, entrepreneurship, and sustainability throughout Ukraine. By extending funding, mentorship, and training to Ukrainian entrepreneurs and small and medium-sized enterprises (SMEs), we strive to establish an environment that fosters economic growth, entrepreneurial spirit, and innovation within the country.

As we venture into the year 2023, our unwavering commitment to supporting Ukraine and driving sustainable economic development across Europe remains resolute. The programs offered by EIT Community will persist in offering valuable opportunities to the people of Ukraine, aiming to further stimulate innovation and entrepreneurship within the nation.

This catalogue has been curated by the EIT Community SRI Cluster, and together with other KICs, we collaborate to promote the establishment of dynamic, long-term partnerships among leading companies, research laboratories, higher education institutions, and stakeholders. By working collectively, we facilitate the development and growth of innovative ecosystems.

At EIT Community, we provide an extensive array of activities focused on fostering innovation and entrepreneurship. These include education programs that seamlessly integrate technical and entrepreneurial skills, tailored services for business creation and acceleration, as well as research projects driven by innovation. Our objective is to introduce fresh ideas and solutions to the market, empower students to become entrepreneurs, and, above all, deliver impactful innovation.

Together, through EIT Community's robust programmes, we endeavour to strengthen Ukraine's economic landscape, nurture innovation, and cultivate a thriving entrepreneurial ecosystem in the country.

### DISCLAIMER

Please note all programmes contained in this Catalogue are offered or are planned to be offered at the time of publishing. This may be subject to change. Please refer to the individual KICs' websites for the most up-to-date information on their programmes and details for applicants/beneficiaries.

# 1. EIT COMMUNITY ACTIVITIES

EIT Community projects are programmes based on collaboration between several EIT KICs to drive enhanced progress on strategic areas of work. Such projects amplify the EIT Community's resources and ability to boost innovation and entrepreneurship across Europe.

Discover the EIT Community offerings related to Business Creation and Education below:

## EIT RED KALYNA

Type of Activity	Awarding Event
Technology Readiness Level	N/A
Target Audience	Ukrainian female entrepreneurs who have developed innovative products or solutions or have transformed their businesses into innovative ones; inspiring female leaders who mentor and guide others in innovation and entrepreneurship.
Date of the Event	To be announced soon
Fee	Free of charge for the nominees
Application deadline	By 15 October 2023
Link to the application	<a href="#">Red Kalyna Initiative</a>

[EIT Red Kalyna Initiative](#) is a new initiative of the EIT Community that aims to recognise outstanding Ukrainian female entrepreneurs who have developed innovative products or solutions or have transformed their businesses into innovative ones.

Every year 10 role models from Ukraine will be inducted into the Red Kalyna Hall of Fame, which will be published and promoted. We also look for inspiring female leaders who mentor and guide others in innovation and entrepreneurship. They will receive the Red Kalyna Award by EIT Community Label to symbolise their strength and endurance.

The project is open to external partners who wish to support female entrepreneurs from Ukraine.

## GIRLS GO CIRCULAR

Type of Activity	Online/Offline Education
Technology Readiness Level	N/A
Target Audience	14-19 pupils, schools' teachers, NGOs
Duration	
Fee	Free of charge
Application deadline	open throughout the whole year
Link to the application	<a href="#">GirlsGoCircular</a>

Click [here](#) to go to the content table

Girls Go Circular is an EU-funded project that empowers girls aged 14-19 across Europe by providing them with digital and entrepreneurial skills through an online circular economy learning program.

The project utilizes the [Circular Learning Space \(CLS\)](#), an online platform that enables students to deepen their understanding of the circular economy and develop digital competencies. The curriculum follows the DigComp, EntreComp, and GreenComp programs, while collaborating with the EIT flagship [Deep Tech Talent Initiative](#) to introduce deep tech topics into school curricula throughout Europe.

Through practical individual and group activities, Girls Go Circular engages students and motivates them to seek solutions for major social challenges. The project aims to empower girls to drive change in the digital and green transition and encourages them to pursue STEM disciplines, breaking free from gender stereotypes associated with these industries.

## 2. EIT FOOD KIC

[EIT Food](#) brings entrepreneurs together with Europe's leading agrifood companies, universities, and research organisations, creating a powerful ecosystem of training programmes, world-class networking, high-impact pilot projects and a community supporting entrepreneurs at all stages of their journey. EIT Food is driving systemic transformational impact in the agrifood sector. It tackles key challenges by marketing innovations, training students, fostering new start-ups, and forging strong partnerships and engagement with people part throughout the food value chain.<sup>1</sup> In 2021, EIT Food supported start-ups and scale-ups which attracted EUR 407 million in investment. It provided a direct financial support of EUR 50 million+ in grants and investments, launched 15 innovations on the market, and supported 361 start-ups<sup>2</sup> brings entrepreneurs together with Europe's leading agrifood companies, universities, and research organisations, creating a powerful ecosystem of training programmes, world-class networking, high-impact pilot projects and a community supporting entrepreneurs at all stages of their journey. <sup>4</sup> [EIT Food | Annual Impact Report 2022](#) "2021 In Numbers"

## EIT FOOD GO2BUSINESS

<b>Type of Activity</b>	Training and mentoring
<b>Technology Readiness Level</b>	Seed/ pre-seed
<b>Target Audience</b>	Entrepreneurs and innovators, especially in agri-food field
<b>Duration</b>	1 month
<b>Fee</b>	Free of charge
<b>Application deadline</b>	To be announced soon
<b>Link to the application</b>	

GoToBusiness will focus on creating a sustainable impact in Ukraine's agrifood sector by boosting innovation and entrepreneurship, creating new economic opportunities, and promoting sustainable and environmentally friendly practices. The activity will also provide training, mentoring, and other forms of support to entrepreneurs and innovators in Ukraine, helping them to develop the skills and knowledge necessary to succeed in their endeavours.

In addition, the activity will seek to establish partnerships between Ukrainian and international businesses and organisations to facilitate knowledge transfer and create new opportunities for collaboration. The ultimate goal of the activity is to create sustainable impact in Ukraine's agrifood sector by promoting economic growth, job creation, and a more resilient and competitive agricultural industry.

EIT Food will be contributing its best-in-class experts, creative community, and unique know-how to support idea-holders in turning their ideas into businesses, learning how to start a company, and evolving the relationship between business and science. The activity will help innovators and entrepreneurs build a viable business model around their innovative product or service idea, gain entrepreneurial skills for starters, and encourage scientists to cooperate with businesses.

We are currently looking for subcontractors to deliver the activity. More information is available [here](#).

## EIT FOOD CHALLENGE LABS UKRAINE

<b>Type of Activity</b>	Training, mentoring, matchmaking
<b>Technology Readiness Level</b>	Seed
<b>Target Audience</b>	Ukrainian food ecosystem players
<b>Duration</b>	
<b>Fee</b>	Free of charge
<b>Application deadline</b>	To be announced soon
<b>Link to the application</b>	

EIT Food Challenge Labs are designed to tackle the big problems faced by the agrifood sector by bringing together diverse groups of people: graduate and postgraduate students, technologists and scientists, experienced professionals, consumers and companies. Challenge Labs builds also capacity among the participants to develop entrepreneurial skills.

Through ideation and design thinking methodologies, the Challenge Labs will spark co-founder relationships, lead to the creation of new businesses and build links between industry, academia and startups. The core of the activity seeks to fully understand the perspective of the problem-holder, understand their needs, get to know their challenges and check whether the designed solution (service, product, system, process) really meets these needs.

We are currently looking for subcontractors to deliver the activity. More information is available [here](#).

## EIT FOOD START UP AWARENESS DAY IN UKRAINE

<b>Type of Activity</b>	Awareness day
<b>Technology Readiness Level</b>	N/A
<b>Target Audience</b>	startups, investors, food companies, universities and research centres, Ministries, Innovation Agencies, companies from the agri-food sector, clusters, farmer associations, etc
<b>Duration</b>	1-2 days
<b>Fee</b>	Free of charge
<b>Date</b>	To be announced soon
<b>Link to the registration</b>	

The main goal of the events will be to introduce EIT Food programs and activities to the local agrifood and innovation ecosystem and scout for potential participants of EIT Food entrepreneurship programmes. The events will also aim to bring together the members of the local agrifood ecosystem and initiate the discussion about the current state and challenges of the ecosystem in relation to innovation and entrepreneurship.

We are currently looking for subcontractors to deliver the activity. More information is available [here](#).

## 3. EIT HEALTH

[EIT Health](#) sparks, shapes, and moulds cutting-edge health innovations. It's transforming the way healthcare is delivered in Europe by building an ecosystem in which fresh thinking in healthcare can thrive. Their network connects world-class organisations across Europe from business, research, and education, forming a strong community of innovators dedicated to improving the lives of people and patients. By bridging the gap between industry and academia, EIT Health facilitates better citizen health, strengthens healthcare systems, and supports a sustainable health economy.

## EIT HEALTH ATTRACT2INVEST

<b>Type of Activity</b>	Training and mentoring
<b>Technology Readiness Level</b>	Scale-up
<b>Target Audience</b>	Micro, small enterprises, spin-offs and start-ups at seed or series A stage
<b>Duration</b>	6 months
<b>Fee</b>	Free of charge
<b>Application deadline</b>	21 July
<b>Link to the application</b>	<a href="#">Attract to Invest - EIT Health</a>

As part of this program, if your startup is selected as one of the top 20, you will receive EUR 25,000. This funding is specifically designated for mentoring services, traveling expenses, and your startup's projects.

During the second half of September, you will attend the Fundraising Bootcamp. This bootcamp offers practical experience in crucial aspects of fundraising, such as creating an investment strategy, finalizing business planning, defining your unique selling proposition (USP), optimizing pitch content, establishing and managing investor relations, as well as refining term sheets and investment conditions.

From October to November, you will engage in Board Meeting Simulation sprints. During these sprints, experienced consultants and investors will simulate real-life scenarios, presenting you with authentic questions and challenges commonly encountered in board meetings. This exercise will help you effectively prepare for actual board meetings, enhancing your decision-making and problem-solving skills.

The program is designed to equip participants with the necessary tools and knowledge to excel in fundraising and board meetings, ensuring the success and growth of your startup.

## CREATING VALEU: INNOVATION TRAINING COURSE

<b>Type of Activity</b>	Training and mentoring
<b>Technology Readiness Level</b>	Pre-seed/seed
<b>Target Audience</b>	Students or aspiring healthcare entrepreneurs
<b>Duration</b>	6 months
<b>Fee</b>	Free of charge
<b>Application deadline</b>	17 August
<b>Link to the application</b>	<a href="#">Creating ValEU: Innovation Training Programme   EIT Health</a>

Access knowledge to develop healthcare products and accelerate your career!

Blended online learning with onsite training **at the University of Oxford**, United Kingdom, this programme has been designed by top-tier universities to create the next generation of pioneers in healthcare innovation.

Learn from industry leaders, participate in skills and training workshops, and work with experienced mentors to pitch your ideas to a panel of experts and investors. Receive an EIT Health certificate and the chance to earn ECTS. Winning participants could have the opportunity to win seed capital to turn those ideas into reality.

## MENTORING & COACHING NETWORK

<b>Type of Activity</b>	Training, mentoring and matchmaking
<b>Technology Readiness Level</b>	Scale-up
<b>Target Audience</b>	Healthcare businesses
<b>Duration</b>	
<b>Fee</b>	Free of charge
<b>Application deadline</b>	Applications are open throughout the whole year
<b>Link to the application</b>	<a href="#">Mentoring and Coaching Network - EIT Health</a>

Whether you're starting up or scaling up, this programme will give you access to a world-leading pool of over 200 healthcare industry experts – all ready to share their knowledge and help you make new and exciting connections. Having a mentor could make all the difference in growing your business successfully.

When you tap into the Mentoring and Coaching Network, you'll have your pick of diverse mentors: whether you're looking for an academic professor, European patent attorney or venture capitalist to give you the inside track — odds are, they're in our network.

## HELLOAI RIS PROGRAMME

<b>Type of Activity</b>	Online education
<b>Technology Readiness Level</b>	Pre-seed/seed
<b>Target Audience</b>	Medical and IT students, concept-stage entrepreneurs; practising and senior medical professionals, healthcare IT executives, and entrepreneurs with mature solutions
<b>Duration</b>	10 weeks
<b>Fee</b>	Starting from EUR 19.99
<b>Application deadline</b>	By 15 December
<b>Link to the application</b>	<a href="http://helloaionline.com">HelloAI RIS (helloaionline.com)</a>

[HelloAI RIS initiative](#) was founded in 2018 as an EIT Health supported educational activity for university students backed by the EU. Our goal is to prepare and involve future talents in solving AI application issues in Healthcare and discussing its future opportunities.

Our unique educational experiences are made possible by HelloAI partner hubs in Stockholm, Barcelona and Budapest, collaborating with the Royal Institute of Technology Stockholm (KTH), LEITAT Technology Center and GE HealthCare.

2600+ students and professionals have joined courses of the HelloAI team from all across Europe. We offer the best pro-bono educational programme for medical students who want to become fluent in AI and entrepreneurship's primary theoretical and practical use in just a few weeks of studying.

## 4. EIT RAW MATERIALS

[EIT Raw Materials](#) is the world's largest raw materials innovation community, enabling the sustainability and competitiveness of the European minerals, metals, and materials sector. By placing strong focus on business creation and access to finance, EIT RawMaterials supports the realisation of business and investment opportunities for start-ups and scale-ups.<sup>5</sup> It provides funding and entrepreneurship coaching to early-stage start-ups with emphasis on idea-to-market relevance for partners (first customer). Their Business Creation and Acceleration activities aim to transform innovative ideas and projects into new business for existing companies (large and small) and new start-ups and spin-offs.

Their Business Creation and Acceleration activities aim to transform innovative ideas and projects into new business for existing companies (large and small) and new start-ups and spin-offs.

Learn more about EIT RawMaterials [here](#).

### RAW MATERIALS ACCELERATOR

<b>Type of Activity</b>	Coaching, funding and anchoring start-ups in their local and national ecosystems
<b>Technology Readiness Level</b>	Scale-up
<b>Target Audience</b>	Medical and IT students, concept-stage entrepreneurs; practising and senior medical professionals, healthcare IT executives, and entrepreneurs with mature solutions
<b>Duration</b>	6 months
<b>Fee</b>	N/A
<b>Application deadline</b>	By 11 September
<b>Link to the application</b>	<a href="#">RawMaterials Accelerator - EIT RawMaterials</a>

The [EIT RawMaterials Accelerator](#) mentors start-ups to quickly become suppliers to (and perhaps future partners of) the EIT RawMaterials network. The programme facilitates introductions to customers willing to adopt innovations. EIT RawMaterials also connects local and national ecosystems to the pan-European network of pilot and test infrastructure facilities as well as to potential customers. The programme comprises three phases – Explore, Build and Grow. Each phase has its own specific set of objectives, processes, and

<sup>6</sup> EIT RW BP 2023-25 ('FS' p.8)

funding schemes. Support includes individual and group coaching, funding, and anchoring start-ups in their local and national ecosystems.

Grant funding of EUR 10 000 in Phase 1 and a combined amount of EUR 80 000 in Phase 2 and 3 is provided.

## BOOSTER CALL

<b>Type of Activity</b>	Coaching, funding and anchoring start-ups in their local and national ecosystems
<b>Technology Readiness Level</b>	Scale-up
<b>Target Audience</b>	Medical and IT students, concept-stage entrepreneurs; practising and senior medical professionals, healthcare IT executives, and entrepreneurs with mature solutions
<b>Duration</b>	6 months
<b>Fee</b>	N/A
<b>Application deadline</b>	By 4 September
<b>Link to the application</b>	<a href="#">Booster Call - EIT RawMaterials</a>

The [EIT RawMaterials Booster Call](#) supports start-ups and SMEs developing innovative products and services that offer sustainable solutions for the raw materials sector. The programme accelerates the market entry of their solutions and facilitates product portfolio diversification, enabling product adaption or new product features to address a concrete market need. The Booster Call has supported +100 early-stage start-ups, launched +50 products and services, and raised an estimated EUR 130+ million in external investment.

The Booster Call provides financial support of up to EUR 200 000 and access to the EIT RawMaterials partner network for businesses who are scaling-up. Besides funding and customised services, select companies also join the EIT RawMaterials partner network to participate in their networking events and gain visibility through EIT RawMaterials network channels.

## 5. EIT INNOENERGY

[EIT InnoEnergy](#) is on a mission to contribute to the energy transition and a more sustainable world. These objectives influence everything they do: any activity undertaken and any company they support should contribute by reducing costs in the energy value chain, reducing CO2 emissions, and/or securing the operability of the energy system. EIT InnoEnergy is now the leading sustainable energy innovation engine that follows the principles of open and collaborative innovation. This includes four layers: people, corporations, value chains, and the ecosystem. The interconnection between these layers makes synergy and innovation happen. EIT InnoEnergy acts as an investor, providing value in exchange for equity. It provides cash plus added-value services to accelerate the business case and boost its speed and scale at lower risk. Through their global network, EIT InnoEnergy reduces the time it takes to market, de-risks innovation, and creates commercially attractive solutions.

EIT InnoEnergy was ranked the [global top investor in the energy sector in 2022](#) and one of Europe’s most active deep-tech investors. It has screened more than 7 000 companies, supported 500+ companies, and has one of the largest sustainable energy investment portfolios worldwide with 180+ investee companies, most of which are launching hardware solutions (60%). EIT InnoEnergy’s network spans 1 200+ partners, 14 partner accelerators in the U.S, and 100+ clean-tech venture capital firms. From researchers to business leaders and policymakers, EIT InnoEnergy has access to organisations that drive the global energy sector. It is always looking for innovators - whether start-ups, scale-ups, or corporations - with ambitious ideas for global impact.

The 180+ portfolio companies are on track to generate EUR 72.8 billion in revenue and save 1.1G tons of CO2 annually by 2030. Collectively, these companies have raised EUR 8 billion in investments to date, with 90% of start-ups working with corporations to further progress.

## CALL FOR SUSTAINABLE ENERGY SOLUTIONS

<b>Technology Readiness Level</b>	Seed
<b>Type of Activity</b>	Investment
<b>Focus Areas</b>	Energy Storage, Energy for Circular Economy, Smart and Intelligent Cities and Buildings, Energy for Transport and Mobility, Smart Electric Grid, Renewable Energies, Energy Efficiency
<b>Duration</b>	N/A
<b>Fee</b>	N/A
<b>Application deadline</b>	All year round
<b>Link to the application</b>	<a href="#">EIT InnoEnergy open call for sustainable energy solutions</a>

Demand for sustainable energy solutions is rapidly increasing. As a trusted partner and the biggest cleantech investor, EIT InnoEnergy plays a pivotal role in accelerating sustainable energy innovations and wants to help make your company a global success! EIT InnoEnergy is looking for and support the most innovative ideas in sustainable energy from around the globe.

Call is Open to all start-ups and companies from Horizon Europe countries. Entity not coming from the EU, or the Third countries (not associated to Horizon Europe) can be awarded the financial support, if approved by the EIT. For financial support of EUR 60,000 or more per third party: allow only entities that are established in countries eligible for Horizon Europe funding — unless otherwise approved by the EIT the granting authority.

## 6. EIT MANUFACTURING

[EIT Manufacturing](#) brings together a growing network of top-tier industrial partners, leading academic and research institutions from across Europe, as well as innovative start-ups, scale-ups, and SMEs. It aims to ensure that global manufacturing continues to be led by Europe. Just as importantly, it contributes to making Europe and its manufacturing sector more sustainable. EIT Manufacturing supports start-ups, SMEs, and corporations in the manufacturing sector to realise their ambitions and invest in new businesses to fuel their growth, leading to sustainable socioeconomic impact.

Learn more about EIT Manufacturing [here](#).

### RIS INCLUSIVENESS

<b>Type of Activity</b>	Startup Accelerator
<b>Technology Readiness Level</b>	Seed
<b>Target Audience</b>	Entities coming from EIT RIS-eligible countries and play a leading role in developing inclusive solutions for individuals with disabilities
<b>Duration</b>	
<b>Fee</b>	Free
<b>Application deadline</b>	By 4 August
<b>Link to the application</b>	<a href="#">EIT Manufacturing Submission Manager - RIS Inclusiveness open call (submittable.com)</a>

[RIS Inclusiveness](#) is an activity to attract, select and support entities coming from EIT RIS countries towards developing innovative solutions to make the work in the manufacturing industry more inclusive for individuals with disabilities.

The activity will provide financial support to the selected applicants. In addition, the selected applicants will receive support services provided by the EIT Manufacturing RIS team and aimed at supporting the implementation of their project.

## BOOSTUP! EUROPE 2023

Type of Activity	Startup Accelerator
Technology Readiness Level	Seed
Target Audience	Mature industrial European startups
Duration	
Fee	Free
Application deadline	By 1 September
Link to the application	<a href="https://submittable.com">EIT Manufacturing Submission Manager - BoostUp! Europe 2023 (submittable.com)</a>

[BoostUp! Europe 2023 Call](#) is a call for mature European startups to solve 5 industrial business challenges, disclosed by this year's partners – **Volkswagen AG, Dana Inc., Talgo, voestalpine Böhler Aerospace, and Berg Propulsion**. BoostUp! Europe 2023 is an instrument for EIT Manufacturing to promote relationships between innovative startups and industrial Corporates and SMEs. The total budget for this call is EUR 150 000 and the top-5 startups will receive a EUR 30 000 lump sum grant to implement a proof of concept (PoC) of their innovative solution to solve a Corporate/SME challenge.

## 7. EIT URBAN MOBILITY

[EIT Urban Mobility](#), an initiative of the European Institute of Innovation and Technology (EIT), has been actively working since January 2019 to bring about positive changes in urban mobility, ultimately making cities more liveable. Their goal is to become the leading European initiative dedicated to transforming urban mobility.

Through the utilization of cities as living labs, KIC collaborates with industry and university partners to showcase how new technologies can address real challenges in transportation, including the movement of people, freight, and waste, in smarter and more efficient ways. Their programs are designed to support our vision of creating urban spaces that are more liveable.

By fostering innovation and facilitating transformation, EIT Urban Mobility aims to enhance the quality of life for individuals, promote the decarbonization of mobility, and enhance Europe's competitiveness in the global economy. EIT Urban Mobility strives to be at the forefront of driving positive change and shaping the future of urban mobility.

Learn more about EIT Urban Mobility [here](#).

## FINANCIAL SUPPORT TO START-UPS

<b>Type of Activity</b>	Financial support
<b>Technology Readiness Level</b>	Scale-up
<b>Target Audience</b>	Start-ups offering innovative urban mobility solutions to create a more social and healthier environments in cities.
<b>Duration</b>	
<b>Fee</b>	Free
<b>Application deadline</b>	By 29 September
<b>Link to the application</b>	<a href="#">Permanently Open Call for applications - Financial support to start-ups - EIT Urban Mobility</a>

Urban mobility is undergoing one of the most transformational shifts of a generation. A successful strategy in the industry requires the adoption of a comprehensive and coherent approach, centred on innovative ventures that are disrupting this landscape.

This drastic global transformation may account for the potentially disruptive long-term impacts, where the new pace of living, consuming, and behaving in cities create a new paradigm for mobility companies to develop products, services, and technologies in all facets: collective, individual, and goods transport.

While the pandemic has taken a heavy toll on the economy, the crisis has also encountered major opportunities for innovation and investments. Examples of drivers underpinning this ongoing transformation are mobility companies with high financial, and environmental impact and growth potential.

In pursuit of leading positive change and business prosperity, EIT Urban Mobility is granting financial support up to EUR 500 000 per company in mobility ventures to accelerate their journey, continue critical innovation and ultimately transform the European urban mobility landscape.
