**EDITH Entrepreneurship in Digital Health**

**EDITH in a Nutshell:**

To achieve universal health involving all disciplines and stakeholders, our EDITH program, co-created by academics and non-academics, addresses the transformation of healthcare through Digital Health. Continuous stakeholder input ensures program relevance, while diverse partners create a unique ecosystem, fostering education, innovation, and entrepreneurship.

**EDITH addresses current topics :**

- **Digital Health Focus:** Equips learners with practical and theoretical skills in digital health.
- **Current Health Challenges:** Takes into account the pressing healthcare issues of our time based on EIT Label objectives and SDGs.
- **Interdisciplinary Learning:** Fosters collaboration between academics and professionals, creating a unique learning environment.
- **Client-Centered Approach:** Involves potential users in the development of sustainable digital health solutions.

**The richness of partners:**

Academic partners  
Non-academic partners

EIT HEALTH AUSTRIA ECOSYSTEM DAY 2025

**Sustainable Development For Generations**

**Contributing to UN SDGs**

**Our framework**

**3 Pillars**

- MORE HEALTH**  
Good Health for People and Animals
  - Access to healthcare
  - Address unmet needs in non-communicable diseases
  - Combat infectious diseases in human and animal health
  - Contribute to food security and safety
- MORE POTENTIAL**  
Good Health for Communities and Our People
  - Co-create healthy, inclusive and sustainable communities
- MORE GREEN**  
Good Health for the Planet
  - Care for our environment

**6 Impact areas**

- Expand access to healthcare for 50 million people in vulnerable communities
- Invest EUR 35 billion in health innovation to tackle non-communicable diseases
- Invest EUR 250 million in partnerships to combat emerging infectious diseases
- Impact 50 million people in vulnerable communities by empowering our employees, partners and social entrepreneurs
- Intensify efforts in the areas of human rights, ethics, good labor and diversity & inclusion
- Protect clean water and further reduce water footprint in all communities we operate in
- Become carbon neutral in our operations and halve natural resources footprint across value chain

**Innovation activities** (Pending EIT Approval)

**New Models to Deliver Healthcare**  
Accelerate piloting and implementation of value-based healthcare models in real-world clinical settings, where success is measured by value created for patients and the shift of healthcare from treatment to prevention.

**Starting point:** IML 8, CE mark where applicable  
**Activities:** Technology integration into healthcare setting and data capture/analysis; Health economics modelling; payor/provider engagement.

**Commercial entity:** start-up, SME, or corporate  
**Consortium:** 1 healthcare provider/payor from the same country, 1 health economics partner, 1 IT integration partner

**Project duration, funding:** 18 months, 600 - 700k€ with 50% co-funding

**Challenge Based Open Innovation**  
Stay tuned for more information!
